Kiao-Chau. Then, again, one hundred years ago Australia was considered a waterless waste. Now it was a flourishing continent, the colonies of which four years ago nobly came to the side of the Mother Country in her hour of need (hear, hear). Crossing to the Eastern side of the Pacific, there was the same extraordinary development and progress which also changed the old strategic conditions. The Pacific had been connected with the Atlantic by nine lines of direct railway communication; but valuable and important as those were from the strategic point of view, they would be surpassed when the canal was made through the Isthmus of Panama. Then, indeed, the old strategic conditions would be changed (hear, hear). He called attention, also to the fact that two submarine cables had been laid from shore to shore, the one all-British, from Vancouver to Australia, and the other belonging to the United States, from San Francisco to Manila.

Votes of thanks to Earl Roberts and Mr. Maguire concluded the proceedings.

YARDS AND MILLIMETRES.

An Oxford View of the Metric System.

A white Paper just published shows that the majority of the British Colonies are in favour of the establishment of the metric system of weights and measures within the Empire. The *Times* (Oxford, Feb. 27) thinks that the revival of the question in the House of Lords might "imperial the reputation" of the Gilded Chamber, and goes on to discuss the subject in an article which despite its length, contains between the lines a goodly measure of common sense. "Should more come of the measure," says the *Times*, "it is most highly probable that the radicals will shortly figure as the People's Conservative Party, whose cry will be, 'Why upset the arrangements of weights and measures which we have had since they existed, to adopt a parcel of Pears? Why confuse the children with newfangled foreign-made metric ideas? Alas! nay, wicked, wicked, right wrong! the sacred cause of Education is again imperilled by the evil machinations of these self-seeking Tories, who by a false subterfuge are trying to pass as Conservatives! The price of bread will inevitably go up in consequence of this tampering with the Poor Man's time-honoured, well-tried, honest Pound and Yard. What baker will sell as much bread in a half pound? but he will do in a quarter? Answer that, traitors as Tories! You are seeking to starve the Poor Man, to bewilder his children with a lot of silly notions, and to cover up your own shame with a measure which in your as-headed folly you think will be popular. Working men, remember Cobden was opposed to the introduction of a system made in China; refuse to support South African Slavery and Home starvation. Remember Cobden, the Friend of the Poor, and down with Chamberlain and his free adoption of foreign ideas! Will you suffer yourselves to be dictated to by a pack of brainless Aristocrats? Never! England has grown rich in pounds—never let her get poor on francs. Cobden was weighed in stones—do not suffer your children and your wives to return a scale in grams! Another item of interest is that all the distance records would become valueless; for what would be the good of a hundred yards time for calculating the speed of a hundred metres sprint? And above all, let us regret the priceless complications of our measures of length with its distracting 'Five-and-a-half Yards make One Rod, Pole, or Pouch, and the charming variety of Stones, Barrels, Pounds, Pipes, Firkins, and other interesting survivals of local prejudice dating from the Hepharchy. Is all this to be wantonly swept away in favour of a system introduced into Europe by Revolutionaries, simply because it is more convenient to multiply by ten than to divide by Thirty-and-a-Quarter? (The *Times*, O. More!)

EDITORIAL COMMENT.

We reproduce in another

column a serious indict-

ment of Hongkong by

OF HONGKONG DR. EVATT, who was

Principal Medical Officer

of the Troops in Hongkong some years

ago. Some of us know Dr. Evatt, and

can therefore discount what he says;

but there are others, who do not know

him, who may be misled by his wild

and sensational outburst in the columns

of a London daily. While there is a

certain amount of truth in what he

writes, it must be remembered that the

worthy doctor writes of Hongkong as

he knew it several years ago. Since

then, the world at large knows more

about plague than it did, and is

not so ready to take fright. In the

meanwhile, many sanitary improve-

ments have been carried out in the

Colony, the official staff is larger and

better organised to deal with plague

epidemics, and when the remedial

legislation of the past year is in full

operation it will be no longer possible

to point the finger of horrified scorn at

Hongkong. All the contemplated

changes cannot be effected in a day or

even in a year; but enough has been

done already to discount Dr. Evatt's

serious indictment, and we are convin-

ced that if he were to revisit the

Colony he would be ready to

admit that the Hongkong of to-

day—with all its overcrowding and

its slums—is not the Hongkong of 1894

or even of 1896, when he was here.

There are still many improvements to

be made, and with the help of an

educated public opinion the officials

may be trusted to carry out those im-

provements. We hope official notice

will be taken in the proper official cir-

cles of Dr. Evatt's remarks.

A Shift Fine.

At the Magistracy to-day before Mr J.

H. Kemp, To Sing was fined \$500, or

three months' imprisonment, for being

illegally in possession of 23 tins of raw

opium and 6½ tins of prepared opium.

A War Supplement.

The *Kobe Herald* illustrates war sup-

plement has been sent to us. Consisting

of 34 pages, it commences by tracing the

progress of the war from the boxer rising

of 1900 up to the present time. Plans

and photographs are scattered throughout

the journal, which is an excellent produc-

tion.

A Great Chance!

A correspondent sends us the follow-

ing cutting from *The Times*, with the

remark, "I wonder who the self-denying

firm is."

A Good START IN BUSINESS in the

EST is offered to an energetic and

reliable young man willing to go to Hong

Kong as CLERK in wine and spirit firm.

Big Fire at Newchwang.

One of Messrs Bush Brothers godowns

at Newchwang has been destroyed by fire.

The damage is estimated at Tls. 150,000.

Rats Caught.

During the week ended April 11, 531

rats were caught, 11 of which were plague

infected. In the following week 578 were

trapped, 6 being infected.

Simultaneous Chess.

P. W. Sergeant, the chess champion

of Hongkong, played five games of chess

simultaneously in the Club last night, win-

ning three, drawing one and losing to Mr

L. H. Newborn.

Orchestral Concert.

We would call attention to the orchestral

concert to be given in the City Hall to-night

by the band of the German cruiser *Hansa*.

A rich musical treat is in store for those

who attend, and we hope the concert will

be well patronised. The performance

begins at nine o'clock.

states—Mr Fleming D. Cheshire, United

States Consul-General at Mukden, and Mr

J. W. Davidson, United States Consul at

Antung, are now in this city. Owing to the

uncertain conditions in Manchuria, Mukden

and Antung both being within the area of

hostilities, these officials will not proceed to

their posts for the present. Mr Cheshire

will remain in Peking, and Mr Davidson

has been temporarily assigned to duty in

the United States Consulate General in

H. A. JOHANSEN

Acting Inspector of Maritime

Abstract—The purpose of this study was to determine if there were differences in the prevalence of musculoskeletal disorders among different types of workers. The study included 600 male employees from three companies who had been employed by their respective companies for at least one year. Data were collected through self-administered questionnaires. Results showed that the prevalence of musculoskeletal disorders was higher among workers in the manufacturing sector compared to those in the service sector. The results also indicated that the prevalence of musculoskeletal disorders was higher among workers in the construction sector compared to those in the manufacturing sector. The findings suggest that there are significant differences in the prevalence of musculoskeletal disorders among different types of workers.
